### DESCRIPTION

DECO TECH provides steel and polymer cliché printing plates for all your pad printing needs. We offer a full range of long, medium and short-run photo-polymer and steel clichés. We photo-chemically etch both thin (0.5mm) and thick (10mm) steel clichés in virtually any size to fit all major brands of pad print machinery. Quick turn around and high quality is our specialty. In addition, we also provide 10 packs of unetched water-wash polymer, alcohol-wash polymer and poly-coated laser processed pad printing clichés. Product specs are outlined below.

TYPE	LIFE CYCLE*	THICKNESS	ETCH DEPTH	ATTRIBUTES
<b>H<sub>2</sub>OPRO™</b>	10,000	0.43mm (0.017")	variable	Color: Orange, economical, water washout
<b>IMAGEPRO™</b>	20,000	0.43mm (0.017")	variable	Color: Olive green, economical, alcohol washout
<b>DURAPRO™</b>	100,000	0.52mm (0.020")	variable	Color: Red, finest print quality, alcohol washout
<b>PROTOPRO</b>	10,000	0.5mm (0.019")	fixed	Color: Green, Alcohol washout
<b>THIN STEEL</b>	250,000	0.5mm (0.019")	variable	Economical, Rockwell hardness: ~52
<b>THICK STEEL</b>	1,000,000	10mm (0.39")	variable	Finest print quality, Rockwell hardness: ~63

2/17/23 Rev C
